

Be a cat's hero!

Hello Human!

Could you be the foster parent I've been longing for? The Sharrow Cats Shelter needs local heroes like you to save the lives of cats like me. If you've been thinking about getting a cat for a while, why not consider fostering?

I'm Mewsli, your shy neighbourhood fur baby who's fallen on hard times. Losing my home and family has really knocked my confidence. It's my dream to be adopted but it will take me some time to feel safe enough. I love chin rubs, chasing string and cosy evenings in. Would you be able to offer me a short foster placement and lots of love to help me get back on my paws again?

What do cat foster parents need?

- ☐ A spare room - for me to nap safely
- ☐ Permission from the freeholder - I don't want to be evicted!
- ☐ Driving license - to take me to the vets
- ☐ To be over 18 - I love kids but I need a grown-up to take care of me
- ☐ A big heart - I need lots of love, care and patience

How does it feel to foster?

"Fostering a cat is the most rewarding thing I have done!" - Ella, 25, Walkley.

"My kids love helping to take care of our foster cat!" - Brian, 40, Nether Edge.

Make Your House a Home

Do you have a chair that looks a little empty? How about a sofa that doesn't feel snuggly enough? Are you having a lonely cup of tea that would be improved with a little company? You won't believe the difference my adorable face can make to your life.

Fostering options

As well as nervous cats like me, The Sharrow Cats Shelter has kittens who need to be looked after until they've had their vaccinations. Or you could foster a mother with her whole litter of kittens!

You can do it!

- **You don't need to be an expert** to foster a cat like me. If you love cats and are willing to learn, the shelter will support you.
- **You can still go on holiday.** Just keep the shelter updated in advance so they can make sure I am looked after.
- **The vet bill is covered by the shelter** for fostering. You just need to take me.
