

Hey, Human!

Wanted: Cat Foster Hero

Do you have what it takes to be a hero to foster cats like me?

I'm Scratch, the street cat. I've been crashing at The Sharrow Cats Shelter but I'm looking for a new bachelor pad to rest my claws while I lay low, waiting to be adopted.

Do you have what it takes?

- ☐ A spare room – a private base for my activities
- ☐ Permission from the freeholder – I don't want to be evicted!
- ☐ Driving license – to take me to the vets
- ☐ Over 18 – sorry kids!
- ☐ A love of cats – obviously you must worship me

How will I repay you?

Undying love

Everyone knows a cat's undying love is a rare diamond. Normally, it takes years of hard work and even then, there's no guarantee. I am offering quality love to you FOR FREE in exchange for a temporary home.

I will make your house a home

Did you think you already had a home? Well, you were wrong! Everyone knows a house isn't a home without a cat.

Boost Your Intellectual Prowess

Everyone knows cat people are smart. Ever heard of Schrödinger's cat? Exactly. Smart. Nobody will take you seriously as an intellectual without a cat by your side. (*PHD success not guaranteed.)

Curb Your Neuroticism

A lesser-known fact is that cat lovers score high in neuroticism. Fear not: I see you! Let us suffer together, my friend.

Rejuvenate Your Instagram Feed

You know what would improve your post-workout photos? Me. Tinder profile? Also me.

Security Services

I'm a smart street cat with a sting in my claw. I will protect you like a mama cat defends her kittens. If you foster me, you have saved my life. I will not rest until the blood debt is repaid.

You can do it!

- **You don't need to be an expert.** I'll have you trained in no time.
- **You can still go on holiday.** I'll just chill at the shelter.
- **The vet bill is covered by the shelter** for fostering. You just need to take me.

Turbo-charge a cat's life!

I know, I'm impressive as it is, but you won't believe what I can achieve if you invite me into your family. I'll repay your investment 1000X and I might even sit on your lap if you don't tell anyone.
